Final Rates for New Tax Bills

Following are the new tax rates (1960) which will be used in determining the amount of local tax bills to be paid this year. The 1959 rates used in last year's collection are given for comparison.

Granite City	New Rates	Old Rates
City	\$.67	\$.738
County	.231	.231

School District	2.22	2.04
Levee District	.393	.373
	\$3.232	\$2.972

The rates are combined here in the way that they affect the majority of people in the local areas. For persons in different governmental groupings, the rates will vary accordingly.

Long lake fire district residents should add .10 (an increase of .016 from last year) to the other rates in Nameoki township to determine their total rate. Those in the Miracle Manor-Bellefonte Place street lighting district should add .10 (same as last year).

Nameoki township residents in the Madison school district should substitute that rate for the Granite City school district rate. Those in the city of Madison should add the city tax rate.

Venice township residents in the Granite City school district should use that district's rate. In all cases, the exact rate can be found by adding the rates of the governmental areas in which each taxpayer resides.

The procedure outlined enables property owners to determine their new combined tax rate immediately. The figures will be supplied to them officially with their tax bills this year.

Morris Outlines Southwestern SIU Campus

Construction of an interfaith religious center on the Edwardsville Campus of Southern Illinois University was announced by President D. W. Morris at the meeting of the Illinois Association of School Boards.

Speaking at the spring conference of the association's Southern Division he said the interfaith center, still in the planning stage, is to be financed by ten religious groups.

The president pointed out that the university campus near Edwardsville was being planned specifically to serve the new type of metropolitan area developing in south-western Illinois — a metropolitan area spread over a great deal of territory and geared to the automobile.

He predicted that the central force of a university would serve to unify this multiplicity of communities. "We aim to build the university into a living, working organism of the state and community," Morris said, "and to have it be in bringing and functioning relationship to it."

"Our chance to hold our leadership in the world today is not in numbers. Our strength is in our belief that each person, according to his skills and talents, be afforded opportunity to expand them to the maximum of his capacity."

"If this can be provided, I believe there will be opportunity for all to go on to the maximum of their potential, and this will be the greatest contribution our university can make to the total sum of society."

"This university is dedicated to the task of revitalizing the southern one-third of Illinois so that there will cease to be a differential between it and the other two-thirds of the state. In Carbondale we can make special approaches to the rural area, in Edwardsville we can contribute to the urban development. Working together, we can attack the total problem more effectively. The new campus is being developed not as a branch of Carbondale but as a separate entity."

major university campus with its own complete program. The first phase of this program is being designed to provide a sound core of liberal arts and sciences.

Architects are working on preliminary plans for the central group of buildings for the new campus, which will provide space for classrooms, a library, administration, and services. Also being planned is a student center, to be built with borrowed money on a self-liquidating basis.

Morris said that it was to be hoped that with careful planning the first appropriation for capital improvements on the new campus could be made to provide for approximately 5000 students.

As soon as possible the university hopes to acquire the entire 2600 acres of land to comprise the total new campus. Although this entire acreage is not needed immediately, he said, it is expected that hundreds of thousands of dollars will be saved if the land is acquired now. Otherwise, it would be necessary eventually to purchase at exorbitant cost, small businesses which quickly spring up on the fringe of any campus.

He pointed out that expansion of the Carbondale campus and most other university campuses has for this reason been extremely costly.

A disproportionately large amount of money will have to go into basic utilities which of necessity will have to be included now, the president explained. All supply lines, for example, will have to be sized for the ultimate development of the campus. It would not be economical to provide six-inch water mains when 12-inch or 18-inch mains eventually would be needed.

The president emphasized that a \$50,000 Ford Foundation grant to Southern Illinois University for educational planning of the new campus will enable the university to carry on an intensive study of the unusual problem confronting a commuting university. It will help the university determine the highest practicable utilization of space on the new campus, with maximum flexibility and convertibility, including satellite classroom facilities around a central core.

Partial Returns Show Cancer Drive Nets \$507

Partial returns from the house-to-house cancer canvass Tuesday showed \$507 was collected by volunteer workers in Granite City and Mitchell. Mrs. A. H. Seebold, campaign director, said today.

The count included funds from drives conducted in just eight neighborhoods, with collections from 30 more areas yet to be tabulated. Noon tomorrow is the deadline for receiving collections. The incomplete drive total brings to \$2500 the overall amount, which includes a \$1300 contribution from the Dow Metal Products Co. Welfare Club and returns from mail solicitation to business and industry.

No figure was made available from Madison, since the door-to-door drive will be held throughout the month and in Venice a similar effort will be made sometime next week.

"If anyone has been overlooked in the crusade or is unable to contribute when a volunteer solicitor called, I urge that a check or money order be sent to my home, 2645 Cleveland blvd.," she said.

New School Directors Responsible To More Than Just 8% Who Voted For Them

Eighty-five out of 100 eligible voters in the Granite City school district failed to vote in last Saturday's election. What a shameful performance in a nation that is supposed to be a democracy; where government is supposed to be of the people, by the people and for the people!

When voters absent themselves from the polls, it is no surprise that organized minority groups are able to control elections. And, worse still, under these conditions in the future, men of broad experience and dedicated to community service, such as Howard Kaseberg and Glenn Abernethy, can hardly be expected to submit themselves as candidates for public office.

Why should they, if 85 out of 100 people obviously don't care who is elected, or how? The defeat of Kaseberg and Abernethy is poor reward for three years of service to the Granite City schools during which the educational program was enriched, taxpayers' costs held to a realistic level, and substantial salary increases given to employees.

This is no reflection on the two winning candidates, George Stidham and Ralph Fricker, whose capabilities in the area of educational and civic leadership are as yet unknown. But it is a reflection on the system which allows an organized minority, whether it be a teachers' union, as in this case, or some other special interest group, to dominate an important governmental unit because of a voting vacuum.

Despite the disappointingly small school vote, which has happened, unfortunately, in past elections, too, there is no reason at this point why Mr. Fricker and Mr. Stidham cannot acquire the same stature and respect as school directors, representing all segments of the district's population, that their predecessors had.

Though elected by only 8% of the eligible voters, we trust Mr. Stidham and Mr. Fricker will feel themselves equally responsible—and responsive—to the 7% who voted for either candidates, as well as the 85% who did not vote at all.

Human nature changes slowly and almost imperceptibly, so don't expect a reformation overnight.

Missouri Standard Time Law Would Create Problems Here

We do not comment often upon proposals before legislatures of other states, but the daylight saving time bill making headway in the Missouri House of Representatives could have repercussions for the Quad-Cities.

Strictly speaking, the bill would have no effect outside Missouri. But in making standard time mandatory throughout the state, the legislature would create many problems for the sections of Illinois adjacent to Missouri cities, such as St. Louis.

Most major cities in the nation operate on the April-October time change in effect both here and in St. Louis, and national networks make the identical switches from "slow" to "fast" time and back again. This year's time changes are scheduled for 2 a.m. April 30 and October 29.

Contrasting this would be confusing and inconvenient for thousands of workers on both sides of the river. We hope the Missouri legislators drop the plan and allow St. Louis and Kansas City to remain on daylight time.

So far, nobody has devised a way to develop a business without putting in hard work.

Care Necessary To Use Power Mowers Safely

The man of the house, recalling last summer's lawn chores, may not wish to recognize the fact, but yards throughout the Quad-Cities undeniably are becoming green. And some of the grass has attained a height indicating that the resumption of regular mowing is not far away.

Due to the large number of power mowers owned by local families, and their potential hazards, it seems an appropriate time to consider a few safety rules. Basic suggestions include restricting mower use to persons other than children or young teenagers, treating the rotating blades with the respect that they deserve and setting blade height at a level that minimizes the chances of debris being thrown upward and outward by the mower.

A good plan is to instruct youngsters to keep away from the area being mowed and to halt the mower when another person approaches. The operator should avoid approaching the grass discharge outlet when the motor is running, and should give his undivided attention to the mowing. He should wear heavy shoes rather than open sandals, protect the legs, fill gasoline-driven mowers outdoors and pick up rocks and other articles from the grass. Manufacturers also stress caution on slopes, and advise against pulling a mower backward toward the operator.

By following a few such hints, Quad-City residents can have both neatly trimmed lawns and a safe mowing season.

Newspaper Profession Offers Satisfying, Purposeful Life

Recruiters already are busily combing college campuses throughout the country, seeking the "cream of the crop" of current seniors for a variety of vocations. Although there are somewhat fewer job opportunities this year, competition continues, with concentration shifting to only those graduating with the highest grades.

Without being critical of these companies, it is fair to say that the journalistic profession is at a disadvantage in the contest. Newspapers usually are separately owned and cannot become organized nationally to compete as recruiters on even terms with a large firm, such as General Electric. This point is made not because newspapers have been unable to attract employees; they have full staffs and are going concerns, performing a needed function and maintaining their position as the major communications media of the nation. But what may be lacking is a broad realization among high school and college students that the profession offers much to them individually in the way of a challenging, useful and well-paid occupation.

From another standpoint, newspapers' role as the "fourth estate"—a fourth branch to complement the legislative, executive and judicial branches of the government—makes their efforts not only interesting to their staff members but vital to the continued success of the democratic process. Without public information skillfully gathered and fairly but fearlessly printed, our form of government and way of life would soon cease to exist.

As journalists familiar with the fast and varied pace, we can visualize few other pursuits that would be as satisfying. There may not be the sensationalism, irresponsibility or some of the glamor depicted in films, but we sincerely recommend newspaper work to students seeking a rewarding and purposeful life.

Accidental Verdict In Death of Miesse Boy

A coroner's jury Tuesday ruled that the death of George Miesse, five-year-old boy who was struck by a car on Pontoon road March 26, was accidental.

The inquest, conducted by Deputy Coroner John Sedlack, heard a physician's report stating the boy died of possible skull fracture and internal injuries. The boy, son of Mr. and Mrs. Everett W. Miesse, 2540 Spaulding avenue, was struck by a car driven by Clyde F. Haller, 52, of Maryville. The boy was attempting to cross the street in the 2500 block of Pontoon road.

No witnesses appeared at the inquest, but an account of the mishap prepared by Granite City police was read by Sedlack.

The report stated that Haller tried to swerve his auto and jammed the brakes to avoid striking the child. The report went on to say that another motorist, who was behind Haller's westbound car, told officers that Haller was travelling between 30 and 35 miles an hour at the accident scene, at which a speed limit of 40 mph is posted.

Charges against Haller, an employee at A. O. Smith Corp., have been dropped. He had been released on \$1000 bond following the mishap.

JP Election In GC Township Cost: \$4442

Taxpayers in Madison county could have been spared the expense of \$4442 in the April 4 justice of the peace district election in township and city precinct boundaries in Granite City, a JP election financial accounting by County Auditor John L. Kraynole shows.

It cost the county that amount to set up and operate the 28 district polling places in Granite City for the election of one justice of the peace and one constable.

Total cost of the election in the five county JP districts was listed at \$15,985 by Kraynole. Salaries of judges and the cost of returns were listed at \$2889, with the election costs in Granite City township accounting for about 45% of that sum.

Although the overall boundaries of the city and Granite City township coincide, there are 25 city precincts and 28 township precincts, making necessary the establishment of 28 separate and additional polling places for the JP election and, in general, confusing voters.

Kraynole's report listed total judges' salaries for the JP elections within this district at \$3447. The printing of ballots and election notices cost an additional \$3476.

'Our Town' With Cast Of 50

GC HS Sr. Class To Give Play Tonight And Friday

Scenery and properties will be at a minimum on stage as a cast of 50 Granite City high school seniors will present Thornton Wilder's "Our Town" as the senior class play tonight and tomorrow night at the school auditorium. The performances will begin at 8 p.m.

Tickets still are available from members of the class and are priced at 75 cents for adults and 50 cents for students.

Rehearsals have been underway for several weeks under the direction of Miss Mary Blackburn. The leading roles are being played by David Thompson, Jerry Straka, David Hancock, Pat Barylske, George Cochran, Karen Daugherty and Gary Grammer.

The play is the story of life in a small town in New Hampshire. The first act is an entire day in the lives of the people of Grover's Corners; while the second act tells the story of love between George Gibbs and Emily Webb, ending with the wedding.

In the third act, Emily is dead and the scenes show the residents of Grover's Corners occupied with petty thoughts.

ITR And TRRA Study Merger Possibility

The Terminal Railroad Association of St. Louis and the Illinois Terminal Railroad Co. are considering a possible merger or combination of services, officials of the companies reported this week.

A feasibility study, underway now and expected to be completed in two or three months, is to determine whether to merge or combine, the officials said.

Employing about 3500 workers, Terminal Railroad Association is owned by 15 railroads for switching purposes and has 80 miles of track.

The ITR, which has 280 miles of track from St. Louis to Peoria, Springfield, Decatur and Champaign, was purchased in 1954 by 11 railroads that enter St. Louis, including nine owners of another line. It employs about 1000.

ITR operated at a loss in 1959 and TRRA earned only \$41,572 in 1959. Both showed losses last year.

GC Library Prepares For National Library Week

A display of four original copies of "Harper" and "Leah" newspapers dating back to 1865 will be featured next week at Granite City public library, 20th Street and Delmar Avenue, for observance of "National Library Week," April 16-22.

Librarian Mrs. Mary G. Knufinke said the papers recently were located in the library and have been found for use by local library patrons.

"For music lovers," the librarian said, "Mrs. Gerald Walters, our recording librarian, will have a table display of varied musical selections including Broadway hits, historical recordings, operas, Shakespeare and music for children."

Reservations also are being taken for tours of the library by school classes.

Mrs. Wella Mandel, children's librarian, has extended a special invitation to all children to visit and read around the library during the special week.

As an added attraction, treats will be offered to all visitors.

Dressel said in a letter that "it is our desire and intention to fulfill the milk requirements for which your district has contracted with Massey Dairy, Inc., for the balance of the school year at contract prices."

"As the only surviving dairy firm in the Tri-Cities area, we feel an even greater responsibility to our community, and intend to support its civic activities and institutions."

The Granite City school board decided Tuesday night to continue in force its present milk and ice cream contracts signed with Massey Dairy, Inc., at the start of the current school year.

The Massey firm has provided portions of the supplies used in the school lunch program.

The same contract rates and provisions will be adhered to by the Dressel-Young Dairy Company's Massey Division and the Chapman Ice Cream Company's Massey Division, effective May 1 and April 1, respectively.

The Massey brand will be continued on both milk and ice cream.

The Chapman company is located at 2912 Easton Avenue, St. Louis. Notice was given April 10 by the Massey president, Roy J. Massey, that Chapman had assumed distribution of Massey ice cream products.

Jon L. Dressel, Dressel-Young vice-president, explained as previously announced that his firm will keep the Massey routes intact and maintain the Massey brand, operating it as a "separate and distinct division."

He added that "all trucks delivering such products will bear the Massey name. All Massey route salesmen will become employees of our company, as will a number

of other Massey employees in plant and clerical capacities."

Prather Captures Quadrangular Meet At North Alton

Bob Miller's Prather Junior high school track squad made a strong showing in sprint, hurdle and relay events Monday afternoon to win the North Alton JHS quadrangular track and field meet.

The Chiefs totaled 60 points. Runner-up Wood River had 49, Roxana 37 and North Alton 18. Prather swept the dash events. Mike Thebeau was first in the 50-yard dash, and then came back to win the 100. Ron Petras broke the tape first in the 220. Haig Nighoghosian was a winner in the 120-yard high hurdles.

Thebeau was the only triple winner at the quadrangular. He tossed the discus 128.4 for a first-place finish.

Prather's 440-yard relay team fell victims of a baton exchange mixup and finished third, but the 880 and mile relay teams captured first places.

Mike Lasiter, Ken Kerro, Mike Brimm and Nighoghosian made up the winning 880-yard relay team; Phil Andrews, Pat Kincaid, Dennis Whitson and Bill Clark each ran a leg of the mile relay in the good time of 4:07.

New \$225,000 Auto Racing Track Opens Here May 30

A \$225,000 multi-track speedway which will accommodate modified stock cars, sprint cars, midgets and motorcycles currently is being constructed near Mitchell, and will open on May 30 if weather conditions permit final grading and finishing.

Roy E. Brannell, Granite City, promoter for the United States Auto Club, which will sanction and control racing at the track, calls the facilities "the finest between Kansas City and Terre Haute."

The layout will consist of two tracks, one a one-half mile banked clay circuit, and the other a quarter-mile track which will be within the grandstand.

Brannell said USAC-sanctioned races for autos and motorcycles will be held this season on the tracks, which are to be known as the Tri-City Speedway, and that promoters hope to attract "big car" racing here by next season.

The tracks are located on Illinois State Route 3, one-half mile south of the U. S. Bypass 66-40 and adjacent to the Bowland Bowl Lane.

Entrance to the track will be from Route 3, and a parking lot capable of accommodating 2000 cars is being constructed.

Workers were scheduled this week to begin erecting steel and concrete grandstands which will give a seating capacity of 5400. A \$20,000 lighting system also is being installed.

Brannell said concrete retaining walls and chain link fencing will be put in place for the safety of spectators.

Falstaffs Can Ice Down SBPA Crown Saturday

Bowlman Schlitz apparently will have to be satisfied with season play in the Southern Illinois Bowling Proprietors Association Classic league.

The current runners-up trail league-leading Alton Falstaffs by 6½ games, and the Falstaffs need salvage only one of their three games with Ripley Pins of O'Fallon Saturday night to clinch a third straight title in the league.

The SBPA matches will get started at 7 p.m. at the B. Bola Lanes in Belleville, with Schlitz meeting Rusty's of Wood River. Loman's Bowlers Shop of East St. Louis going against Revere Room of Collinsville and Pepsi-Cola of East Alton facing Black Label Beer, the host squad.

Schlitz has a 3½-game lead over Thirdplace Ripley Pins and a 4½ game margin over fourth-place Revere Room. A second-place finish in the final regular season standings would be advantageous, since that club will meet the fourth-place finisher in the roll-offs.

The Falstaffs' Ray Ott still leads individuals in the high average department with 211. Jim Vrenick of Schlitz is close behind at 206.

The league standings, with won-lost records and averages: Falstaff 56½-30½, 987; Schlitz 51½-35½, 977; Ripley Pins 48-42, 971; Revere Room 47-43, 969; Black Label 45-45, 972; Rusty's 43-47, 969; Loman's 38½-51½, 950; Pepsi-Cola 27½-59½, 938.

Stingy Warrior Pitchers Help GCHS To Third Straight Win Monday, 3-1

Granite City continued to get good mileage from a small pitching staff as the Warriors won their third straight Monday afternoon, beating Belleville on the losers' diamond in a Southwestern conference game, 3-1.

The victory gave Joe Fedora's clan a 4-1 record for the season, and was won No. 2 this spring for left-handed twirler Joe Holder, who pitched no-hit, no-run baseball for five innings.

Ironically, Holder had to be rescued by reliever Larry Diak in the sixth after he had walked three straight batters and led run the count on the fourth to 3-0. Holdo still had a no-hitter when he left the mound.

Diak got the first man he faced to bounce into a fielder's choice which scored the Maroons' only run, and then struck out the next batter.

First Hit In 7th
Belleville Pitcher Ted Harvey got his team's first hit to lead off the seventh.

Diak fanned the next two batters before Catcher Bill Schluter connected for a single, but the Maroons rally died when Diak came up with another strikeout.

The Warriors did all of their scoring in the first as Harvey pitched the control game. Diak fanned three batters and led off with a walk and Bob Hofek singled after Dave Sparks had flied out.

Harvey then issued free passes to Steve Schardan and Larry Corey, forcing in one run. Tony Mance fanned, but Catcher Pat Schuman came up with a timely single which scored two.

The Maroons threatened in the fifth, thanks to a two-batter error which gave Harvey a line at second plus a walk and two passed balls. Harvey got a throw to stand toward the plate on the second passed ball, was tagged out there.

Holder, the winner, struck out seven in five innings, while Diak fanned five in relief.

GCHS Edges Belleville In Tennis, 3-2

Double combinations rescued the Granite City high school varsity tennis squad from defeat Monday afternoon in Belleville as Dick Harnon's squad slipped past a tough Maroon contingent, 3-2.

The Warriors were down 2-1 after their first and second singles entries had been edged in three sets by Belleville players, but the No. 1 and No. 2 doubles combinations won handily to boost GCHS to its second tennis win in as many outings.

The results:
No. 1 singles—Frank Connors (B) defeated Mike Barnes (G) 7-5, 3-6, 6-2.
No. 2 singles—Brian Smith (B) defeated Bill Logan (G) 6-4, 5-7, 6-2.
No. 3 singles—Keith Veizer (G) defeated John Adams (B), 8-6, 6-1.

No. 1 doubles—Mue Prusak (B) defeated Steve Crook and Dave Lashley (B) 6-0, 6-4.
No. 2 doubles—Terry Ruslick (B) 5-7, 6-4, 6-0.

Trotts Blanks Bethalto On 2 Hits, MHS Breaks 4-Game Losing Streak

Curveball Pitcher Dan Trotts, exhibiting near-perfect control, tossed a two-hit gem at Bethalto in Madison Monday afternoon as the Trojans broke a four-game losing streak in defeating Civic Memorial 7-0.

Gulash got things started with a single. Tony Modras was safe on an error and Catcher Sam Dymas singled to lead the bases. Trotts bounced into a fielder's choice, Gulash scoring.

Success came off by Tom Lubak, Jerry Graklanoff and Tom Oneskys sent four more Trojan runners across the plate before Corcoran was able to put out the fire.

Madison is scheduled against Cahokia on the MHS diamond today at 4 p.m.

off the seventh. Diak fanned the next two batters before Catcher Bill Schluter connected for a single, but the Maroons rally died when Diak came up with another strikeout.

The Warriors did all of their scoring in the first as Harvey pitched the control game. Diak fanned three batters and led off with a walk and Bob Hofek singled after Dave Sparks had flied out.

Harvey then issued free passes to Steve Schardan and Larry Corey, forcing in one run. Tony Mance fanned, but Catcher Pat Schuman came up with a timely single which scored two.

The Maroons threatened in the fifth, thanks to a two-batter error which gave Harvey a line at second plus a walk and two passed balls. Harvey got a throw to stand toward the plate on the second passed ball, was tagged out there.

Holder, the winner, struck out seven in five innings, while Diak fanned five in relief.

Cards Select 'Miss Red Bird' Friday; Diana Ferro Finalist

Miss Diana Ferro, the daughter of Mr. and Mrs. Pete Ferro, Rural Route One, will be one of six finalists competing for the title of "Miss Red Bird" at the home opener for the St. Louis baseball Cardinals Friday night at Busch Stadium.

Fans attending the game will select a winner by balloting as they enter the ballpark prior to the Redbirds' contest with Cincinnati. The contestants were selected earlier this month from among candidates within the area of Cardinal fandom.

All six will be guests of Cardinal owner August A. Busch Jr. at a pre-game banquet and will sit in Busch's box during the opening game. "Miss Red Bird" will make a number of appearances at Cardinal-sponsored functions during the 1961 season.

Miss Ferro, 18, is a freshman student at Southern Illinois University where she is a member of the student council and chairman of the Student Union Board.

When one car outsells all the rest the way new Chevrolet is doing—there's got to be a reason. And we can think of some pretty good ones. The clean-etched looks of the new body by Fisher, for example. The eager brand of "grit" that's under the hood. The easy way it handles. Plus the added advantage of extra-coat options like triple-turbine Turboglide.

But to sample all these reasons together, you have to get a Chevrolet out on the road. And there's where that Jet-smooth ride takes over with its own gentle kind of persuasion. If you weren't absolutely sure you'd imagine you were riding in a far cooler car.

No wonder people are buying more Chevrolets than any other make. Chevrolets have more of what it takes to please people!

Venice Bridge Traffic Nearing 10,000,000

McKinley Bridge traffic under operation by the city of Venice is nearing the 10,000,000 mark and should pass it some time in June.

With the latest tally of 346,925 vehicular crossings for March, the grand total since the Nov. 21, 1958, bridge acquisition stands at 9,206,812.

Close to records for any month, the 346,925 total and 11,191 daily average in March showed an 8.8% increase over March 1960 traffic. Record highs were the 350,559 crossings and 11,308 average in May 1960.

A breakdown lists 77,003 in the first week, 76,153 on March 8-14, 77,495 the third week, 79,715 on March 22-28 and 38,556 on the last three days of the month.

Bridge Manager Henry McMillen, happy over the 8.8% gain after three straight months showing a drop from the previous year, describes the traffic pattern as a barometer of the employment level, since the bulk of the bridge's use is by daily commuters going to or from Illinois to work.

Seek 4,000,000 A Year
The bridge staff, seeking to top the 4,000,000-a-year mark for the first time in the current fiscal year, also is pleased with the 1,556,618 lists for the first six months of 1960-61. This includes 343,092 last October—the

highest year begins Oct. 1—329,277 in November, 335,902 in December, 335,063 in January, 328,359 in February and the 346,925 in March.

This half-year total is 18,677 vehicles ahead of the 1,937,941 mark in the first half of 1959-60, which ended with a total of 3,500,000. A similar increase during the next six months would result in 4,000,000 being surpassed.

Finances of the bridge are geared to projections showing steady increases in traffic volume. Increases have been the rule, except in March 1960 and the three months preceding March 1961.

Retarded Children
Program Told In Talk

William A. Coyle, president of the Granite City Association for Retarded Children, outlined the local program in a talk preceded by a film at the Granite City Kiwanis Club dinner meeting Monday at the Elks Club.

His talk pointed out that classrooms are available at McKinley and Niedringhaus schools and facilities are available for both the educable mentally handicapped and trainable mentally handicapped child.

The trainable child, he said, has somewhat less ability than the educable pupil. Fifteen educable students are permitted per classroom, while only 10 trainable children are allowed in a classroom.

The children are instructed by special teachers, made available by the local school district. A special bus, which takes students from distances of seven to eight miles, has been provided by a local service club. Maintenance cost is taken care of by the United Fund, of which the group is an agency. The park district provides recreational equipment.

Also a scout program has begun, and a non-denominational club is taken care of by the United Fund, of which the group is an agency. The park district provides recreational equipment.

The film dealt with the educable child, and pointed out that three per cent of the nation's children are mentally retarded.

The speaker was introduced by Eugene Lichtner, program chairman.

It was announced that G. H. Sternberg, local contractor, will be principal speaker at the spring fellowship meeting to be held Monday at the Granite City high school cafeteria.

The meeting will be attended by representatives of ten clubs in the district, both of Chicago: Orval Legate, Edwardsville, division lieutenant governor and several past lieutenant governors, which include Marvin Barnes, a member of the local club.

Two guests, Freeman Wolfe and Kiril Kirchoff, both of Granite City, attended the meeting, along with 25 members.

Officials expected to attend include Vern Drex, governor of the Iowa-Eastern Illinois district; Roy Davis, secretary of the district, both of Chicago; Orval Legate, Edwardsville, division lieutenant governor and several past lieutenant governors, which include Marvin Barnes, a member of the local club.

No Shortage In State Of Migrant Farm Labor

Illinois farmers are assured of ample migrant labor this season in a statement issued today by Samuel C. Bernstein, assistant director of labor.

"As one step in combating unemployment in our state, Illinois has definitely barred imported foreign farm labor for the 1961 season," Bernstein explained.

"That, however, does not imply any bar against native American migrants. In fact, recruiting of native migrant labor has been under way for some time and farmers are urged to list their labor requirements promptly with their local State Employment Service offices.

"Naturally," Bernstein added, "we want to see as many Illinois unemployed as possible absorbed into farm work, but migrants from any State of the Union are welcome on Illinois farms. Present indications are that the supply of native migrants will be ample to take care of all Illinois farm labor needs."
